

EHM Planning for a Carbon Neutral future

The history of EHM

EHM has been trading for **25 years** from our base in Southwest London and have successfully supplied companies nationwide with their PPE equipment and janitorial supplies.

We feel that a major factor for the key to our success is the commitment of our staff – many have been employed with EHM for more than 12 years.

EHM's Core Values

- o Commitment
- o Respect
- o Sustainability
- o Environment

EHM are committed
to implementing
changes to reach
their Carbon Neutral
goal

We aim to achieve our Carbon Neutral goal by:

Our Supply Chain

- Reduction of single use plastics
- Offering PPE recycling facilities to our customers
- Sourcing environmentally friendly products

Accreditations

- Our ISO14001 Management system ensures we practice and manage our environmental risks and obligations
- Maintaining FORS Silver accreditation

Our HQ

- Introduction of hybrid vehicles for staff
- Analysing all utilities and reducing where possible
- Training staff in environmental awareness

Packaging

- We are working closely with supply chain to remove all plastic bags
- Where possible we remove plastic straps from boxes

Logistics

- Additional resources of adding electric vehicles to our fleet reducing carbon emissions and adhering to ULEZ .
- Introduction of TrackM8 telematics to improved drivers technology

Our products

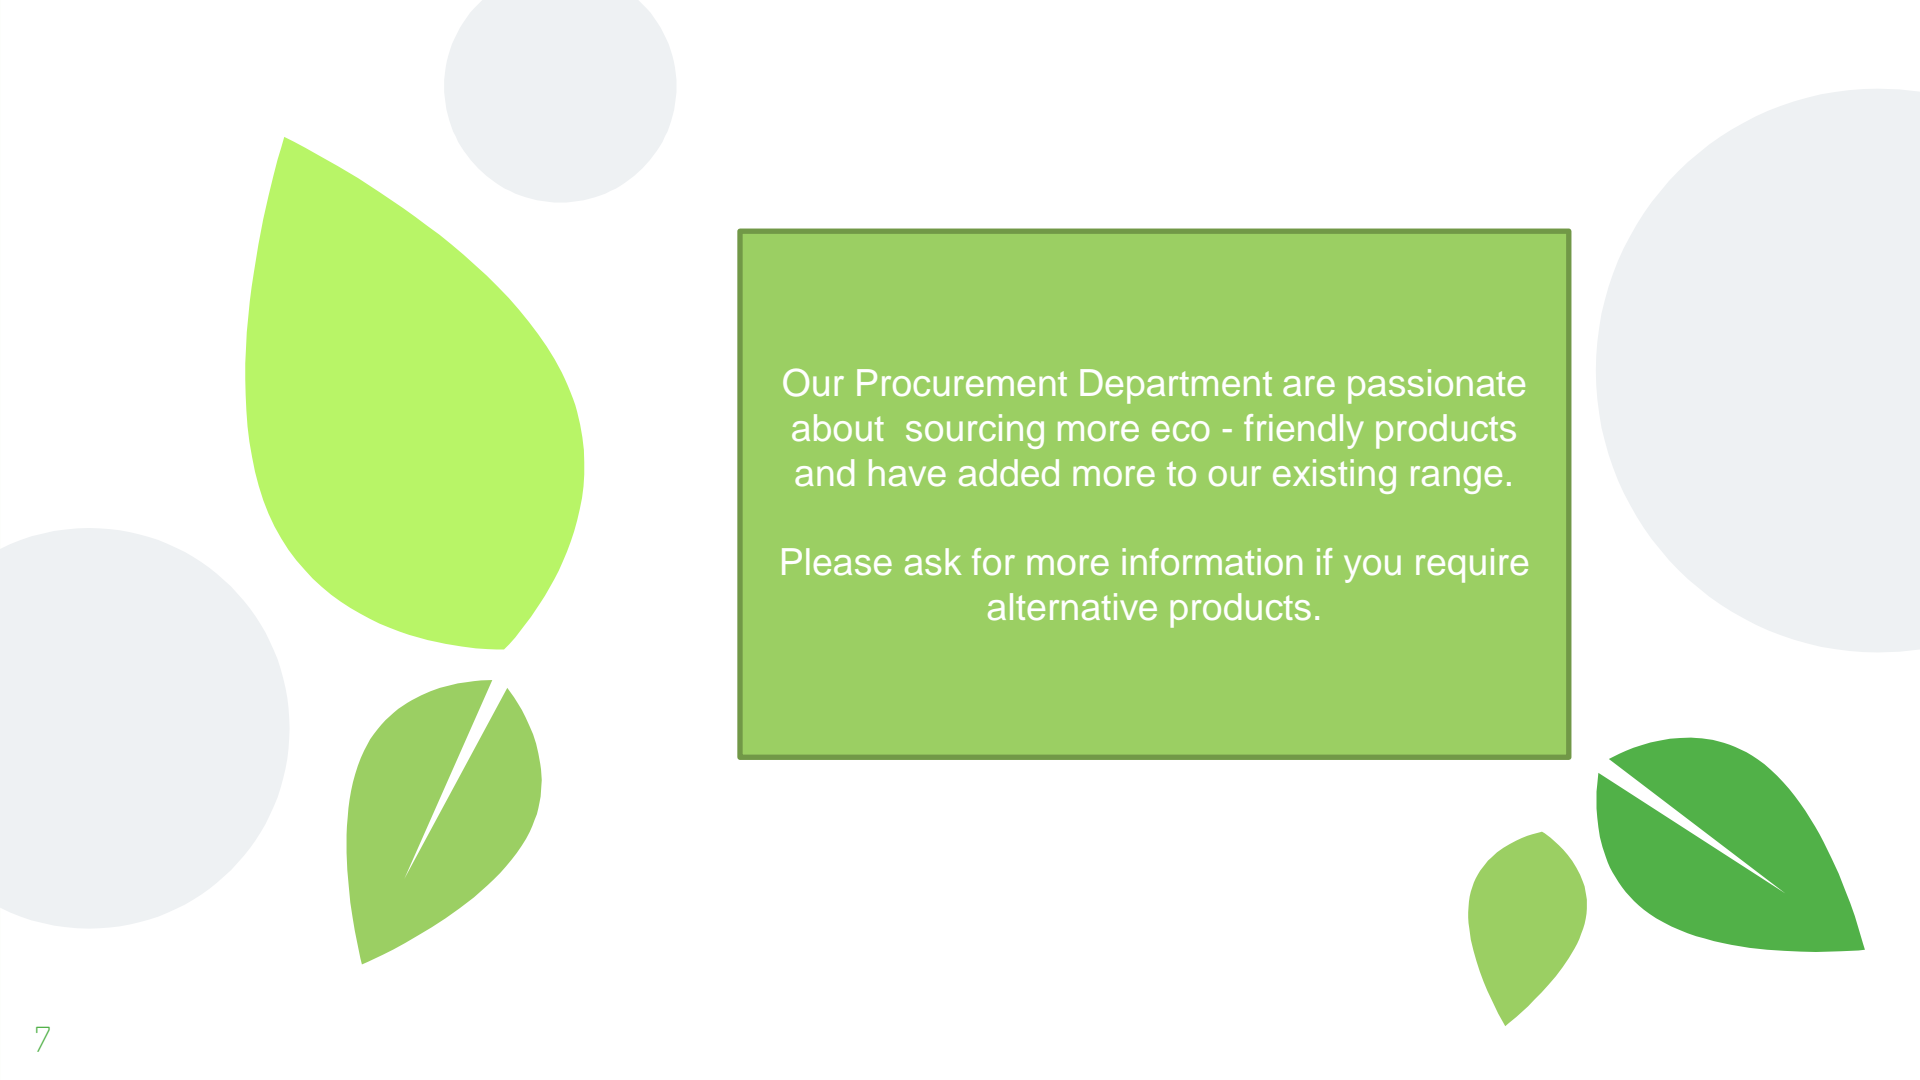

- Sourcing hi vis garments and products made from recycled materials
- Offering alternative greener cleaning products

The key to EHM's success

EHM monitor their fuel and energy consumption weekly and are pleased to announce positive improvements have been made in both areas.

Our Procurement Department are passionate about sourcing more eco - friendly products and have added more to our existing range.

Please ask for more information if you require alternative products.

EHM reduce their carbon emissions by:

- Changing the management teams deisel vehicles for hybrid
- Adding electric vehicles to the fleet
- Installing electric chargers on site
- Combining non essentail deliveries

We achieve our environmental targets by:

Reduce

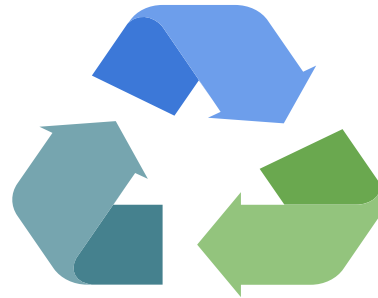

By implementing a plastic reduction initiative we have saved **1.6Tonne** of plastic from the supply chain since June 2021.

Reuse

We recycle **all** packaging from our deliveries.

Recycle

In 2021 EHM recycled **92.6%** of waste saving it from landfill.

We are proud to be members of

EHM are committed to embracing the change and saving the environment.
