Less waste

EnviroPad[®]

No more pools of oily rainwater

- Innovative spill pad locks in hydrocarbons permanently
- Smart polymer turns oil and fuel into solid rubber
- No leaks so no sidewalls or liner required
- Can be safely left out in the rain and jet washed
- Cheaper than nappy-style products
- Best oil retention capacity

Considerate Constructors Scheme
BEST PRACTICE HUB

Cost per litre of oil absorbed:

	EnviroPad [®]	Nearest Competitor	Nearest Competitor + Liner
Small	£13	£53	£28
Medium	£12	£42	£22
Large	£12	-	-
XL	£12	-	-
XXL	£8	£25	£15

Based on average prices from six leading stockists (March 2020).

Best spill control. Best value.

- EnviroPad[®] has the lowest cost per litre of oil absorbed. And it doesn't leak!
- Can be used inside and outdoors
- Doesn't need sidewalls or a liner
- Reduces the volume of waste you produce because contaminated water doesn't pool inside

A better fit for your plant and machinery ...and your budget!

EnviroHorn Drain Filter

Prevents sediment and contaminants from your site entering the drainage system

- Oil & Sediment and Sediment-only filters
- Retains up to 21kg of sediment
- Removes sediment particles down to 100µm
- Simply empty and reuse
- Oil & Sediment model retains 1L hydrocarbon sheen
- Install in 5 minutes

Oil & Sediment Dewatering Filters

Stay compliant and on schedule with our rugged and reusable filters

- Save £000s - no vacuum tankering required
- Different sizes and grades (see table)
- Easy to attach, use and empty
- Integral hydrocarbon detector indicates when oil & sediment filter needs replacing
- Reuse up to 20 times*
- Manifold for attaching up to eight filters

Product	Sediment	oil	Reuse	Size	Flow Rate	Usage
Economy Filter	20Kg	-	-	100µm	450L/Min	Single use/One day
Sediment Filter	20Kg	-	20x	150µm	450L/Min	All scenarios
Sediment XL Filter	40Kg	-	20x	150µm	800L/Min	All scenarios
Oil & Sediment Filter	20Kg	2.5L sheen	20x*	150µm	300L/Min	Hydrocarbons present
Ultra-fine Sediment & Oil Filter (Camlock)	20Kg	2.5L sheen	20x*	1µm	300L/Min	Sensitive areas/high pressure/hydrocarbons
Ultra-fine Sediment & Oil Filter (Collar)	20Kg	2.5L sheen	20x*	1µm	300L/Min	Sensitive areas/high pressure/hydrocarbons
Manifold (for 4, 6 or 8 filters)	80-320Kg	10-20L sheen	Unlimited			For when a sediment tank impractical/too expensive/overkill

* Oil & Sediment filters must be replaced when integral hydrocarbon detection strip turns dark blue.

Oil Retention Pillows

Absorb and retain pollutants with zero leakage

- Contains our proprietary polymer which turns oils and fuels into solid rubber
- Captured contaminants cannot leak out
- Remove a sheen from pooled water
- Reduce a slick to enable dewatering with filters where vacuum tankering would otherwise be required
