

# DataSheet

With one of the widest ranges available on the market today, Commander® is firmly established as a true market leader. Time has proved these portable fire extinguishers as a dependable choice for almost any situation, and reliable performance is guaranteed. Furthermore the Commander® 6ltr, 9ltr, 6kg and 9kg models now boast extremely high fire ratings as well as the British Kitemark Certification.

## FOAM FIRE EXTINGUISHERS

AFFF (Aqueous Film Forming Foam) extinguishers offer some additional benefits over water units. Not only do they typically have higher fire ratings, but they are also suitable for Class B fires involving flammable liquids. They are highly effective extinguishers with a rapid flame knockdown, and do not compromise visibility for safe building evacuation.

Our range consists of a 6 litre with a 21A 144B fire rating, and a 9 litre with a 27A 183B rating. Both units are 35kVa dielectrically tested and safe for inadvertent use on fires involving live electrical equipment. The units are Kitemarked and come with our full 5-year warranty.

Technical Specification	FSEX1	FSWX2	FSWX6	FSWX9
Capacity	1 litre	2 litre	6 litre	9 litre
Fire Rating	5A 21B	8A 55B	21A 144B	27A 183B
