SYSTEM

COMFORT  
PERFORMANCE  
AGILITY

### DESCRIPTION

9560 ORSON: Uniform safety boot built with a custom moulded 90 degree angle outsole for premium ladder gripping. The ankle shape is contoured to provide an ergonomic movement of the foot and ankle without restricting the step of the wearer. Equipped with a front scuff guard to help the longevity of the boot and offer added protection above the toes. The heat resistant outsole will protect from hot surfaces and also provides anti-slip certification. Extra padding on the tongue and collar make it a very comfortable boot for long work days. Finally the dual layered anti-fatigue footbed provides the needed boost to keep feet fresh when working hard. Manufactured in accordance with **ISO 9001 Quality Management** and **ISO 14001 Environmental Management** systems.
